PROFESSIONAL SUMMARY

Aspiring Full Stack Developer with a strong foundation in frontend and backend web development. Passionate about building scalable, user-centric applications and contributing across the entire product lifecycle from ideation and design to development and deployment. Motivated to grow in fast-paced environments while delivering impactful digital solutions.

EDUCATION

B.E in Electronics and Communication Engineering

2022 - 2026

SNS College of Technology

GPA: 8.54/10

SKILLS

Languages: Python, JavaScript, TypeScript

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Design & Tools: Figma, Git, GitHub

PROJECTS

GeoVault Website | MERN Stack - React, REST APIs

- Built a location-sharing web application enabling users to upload, manage, and view known locations.
- Developed a responsive React frontend and integrated REST APIs for secure data handling and state management.

Trading Website | Frontend Development - React, WebSockets, REST APIs

- Built a real-time trading dashboard using React to visualize market prices, order books, and trade activity.
- Integrated REST APIs and WebSocket streams to handle live price updates and paper-trading interactions.
- Focused on UI performance and real-time state updates while consuming backend analytics and simulations.

LecturelyAI – AI-Powered Lecture Processing System | Full Stack, AI Integration - Next.js, Express.js, AI APIs

- Built an AI-powered lecture processing system to generate subtitles, translations, and structured notes using modular backend pipelines and real-time UI.
- Implemented secure user authentication and session management to enable personalized lecture processing and data persistence

INTERNSHIPS

Web Development Intern - CodSoft:

May - 2026

- Developed and deployed full-stack web applications including a Job Board Platform and Online Quiz Maker using React.js, Node.js, Express.js, and MongoDB.
- Implemented features such as user authentication, dashboard management, search functionality, job applications, quiz creation, score evaluation, and responsive UI design.
- Built and integrated REST APIs, database operations, resume uploads, and email notification workflows while following modern web development practices.

Full Stack Web Development - NullClass:

Nov 2025 - Feb 2026

- Developed responsive and interactive web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js).
- Built frontend interfaces with React.js and integrated backend APIs for seamless data flow and user interaction.
- Implemented database management, routing, authentication, and full-stack application deployment following modern web development practices.

Manufacturing & Systems Intern - Salzer Electronics Ltd.:

Jun - 2025

- Gained exposure to industrial manufacturing workflows, electronic components, and quality control systems.
- Understood how hardware systems integrate with automation and software-controlled processes.
- Developed awareness of process optimization, documentation, and compliance standards used in large-scale systems.

CERTIFICATIONS

Oracle: AI Foundations associate.

NPTEL: Social Innovation in Industry 4.0.

Great Learning: Excel For Beginners.

LinkedIn Learning: Express.js.

Udemy: MERN stack, Figma UI UX Design Essentials.

ACHIEVEMENTS & ACTIVITIES

Leadership: Volunteered in blood donation camp, rallies, and event committees.

Recognition: Won Photography Competition at Bannari Amman Institute of Technology.

Teaching: Conducted Japanese basics classes, improving communication & mentorship skills.
